From the north:

Border crossing at Salzburg-Walserberg, Tauern motorway towards Villach (A10), Radstadt, through the Tauern Tunnel (toll required), St. Michael im Lungau exit before the toll plaza. Note: In the summer months of July/August (risk of congestion) you should always take a detour via the Radstädter Tauern pass (Radstadt exit). This pass is not advisable in winter. If congestion is reported at the Walserberg border crossing, drive via Berchtesgaden to Hallein and from there take the motorway (A10) to Villach.

From the east:

Drive through Murtal.

If you are arriving on the Austrian motorway, you will need a motorway toll sticker (toll stickers or "Vignette" can be purchased for ten days or two months).
